

SPECIFICATION

Didecyl Dimethyl Ammonium Chloride 80 %

Product Identification

Description:	Colourless or light-yellow liquid
Molecular Weight:	362.08 g/mol
CAS-No.:	7173-51-5
EINECS Number:	230-525-2
REACH Registration:	Registered

Product Description

Main Applications:	Consumer formulation in biocidal products and PPP Consumer formulation in antibacterial washing and cleaning products Industrial Catalysator; Medical products; Other industries
Characteristic:	Colourless or light -yellow liquid
Purity:	80%

Specification

PH (10% solution), PH Value	6.0-9.0
Free mine+amine salt, %	≤2.0
Content, %	78.0-82.0
Colour (APHA)	≤90
Ash, %	≤0.5
Ethanol, %	9.0-13.0
Turbidity (NUT)	≤5
